Subject : Web Site Audit

Site Name : http://himdemo.nic.in/food/welcome.asp
Site URL : http://himachal.nic.in/food/
Temporary Site URL : http://himdemo.nic.in/food/welcome.asp

The scope of the audit is restricted to the **food subsite** under the main site of <http://himachal.nic.in>. Note: <http://himachal.nic.in> has not been audited in this iteration of audit. The above site (food subsite) has been audited on the staging server at the temporary site URL. The site consists of chiefly static .html documents. The site also is host to asp-based applications for closed user group access. The application owners have removed the vulnerabilities identified during security audit conducted earlier on the site.

Note: The application owners must revert back for re-audit for any application changes and additions. Refer to audit policy.

Recommendation:

1. Site may be hosted with the privileges of **read and execute** permission for the general public.
2. SSL: The following to be deployed over SSL
 1. <http://himachal.nic.in/food/>
3. Web server and OS level hardening need to be in place for the production server.
