

**Such other information as may be prescribed; and thereafter update these publications every year**

One of the main functions of the State Board under the pollution control laws is to create Environmental Awareness among the public. In this regard, the State Board organizes World Environment Day, International Earth Day and Pollution Prevention Week every year to create awareness among general mass. Following activities are organized at the headquarter, regional offices, laboratories levels across the State to commemorate the occasion of World Environment Day each year.

1. Vehicular monitoring in the major towns of the State.
2. Activities like quiz competition, drawing competition, slogan writing and debates for the School children by field offices and laboratories. They also participate in cleaning of natural springs (drinking water sources) campaign in their respective localities.
3. Rallies are taken out by the school children carrying banners and signboards on environmental slogans.
4. Distribution of pamphlets on vehicular pollution, air pollution and noise pollution amongst general public and students.

In addition to above, the State board intensified mass awareness campaign through publication of matter in the leading national, local newspapers, weekly & quarterly magazine. Besides, the Board also telecast/broadcast environmental awareness campaign/jingles/advertisements through All India Radio (AIR) and Doordarshan particularly during festive seasons.
